FUNCTION

GEBERIT SHOWER SOLUTIONS

THE FOUR DRAINAGE SYSTEMS

The shower is more than just somewhere to get clean – it also helps you feel refreshed and gives you time to think. So your shower should stand out, both in terms of function and look. Floor-even shower surfaces are the centrepiece of any wellness bathroom.

CLEANFLOOR

The floor-even Geberit CleanFloor30 shower surface is simple to install, durable and easy to clean, combining an attractive design with smart details that make everyday life noticeably easier.

CLEANLINE

Geberit CleanLine30 shower channels are sleek, functional and sophisticated – down to the finest detail. Made of stainless steel, they combine modern design with maximum everyday practicality. The shower channel is just 43 mm wide, meaning it fits elegantly into any shower surface – either mounted back-to-wall or in-centre.

CLEANWALL & CLEANPOINT

Geberit CleanWall moves the drainage of floor-level showers from the floor to the wall. This gives shower areas an elegant and modern look, as flooring can have a completely seamless design.

Geberit CleanPoint is the classic solution for draining floor-even showers. It offers an exceptional discharge rate with a flat water seal structure and is easy to position thanks to its compact design with a grating area of just 8 x 8 cm.

- 1 Test facility in the Geberit laboratory
- 2 Geberit WC with TurboFlush: up to 10 times better than the standard
- 3 Geberit bathroom, designed by Bjerg Arkitektur, Denmark
- 4 Production of the Geberit AquaClean Mera shower toilet
- 5 Heinrich and Klaus Gebert in the 1970s
- 6 Raw material before processing

Geberit products are the result of a perfect balance of elegant design and outstanding functionality, responsibly manufactured from high-quality materials. They are easy to clean, straightforward to use and contribute to a better quality of life.

The globally active Geberit Group is the European market leader for sanitary products and continues to set new standards in the sanitary industry.

Geberit is active in over 50 countries and manufactures sanitary products for the sustainable improvement of quality of life at 26 production sites. The company has its headquarters in Rapperswil-Jona, Switzerland, where Caspar Melchior Albert Gebert founded the company back in 1874.

Over 10,000 employees are committed to offering customers innovative, sustainable and durable quality products. Right from the start, Geberit has been characterised by its profound innovative spirit. This is firmly rooted in extensive in-house research and development initiatives. All new developments undergo a meticulous process, which means customers can be sure that new products not only fulfil their needs, but also meet the highest quality standards.

DESIGN
MEETS
FUNCTION

Pairing outstanding functionality with aesthetic design across the whole bathroom – that is what Design Meets Function means.

OUR COMMITMENT TO TAKING RESPONSIBILITY IN THE SANITARY INDUSTRY

“SUSTAINABILITY HAS BEEN AN INTEGRAL PART OF GEBERIT CULTURE FOR SEVERAL DECADES. OUR FOCUS IS ON CONSTANT AND CONSISTENT IMPLEMENTATION WITH MEASURABLE RESULTS.”

Christian Buhl, CEO

OUR UNWAVERING SUSTAINABILITY STRATEGY

Over 30 years have gone by since Geberit drew up its first environmental strategy and started implementing specific measures. Over time, this strategy was gradually expanded into a comprehensive sustainability strategy based on the UN Agenda 2030 and its 17 Sustainable Development Goals.

In line with the 2030 Agenda framework, Geberit takes into account economic, ecological and social aspects. The aim is to sustainably enhance the quality of life for individuals through innovative sanitary products, with the explicit objective of minimising the ecological footprint across the entire value chain. In addition to maintaining fair cooperation with its suppliers and business partners, Geberit also considers the training and development of its employees, as well as installers, planners, and architects, to be integral components of this strategy.

GOLD MEDAL IN THE ECOVADIS SUSTAINABILITY RATING

A strategy that pays off. The Geberit Group was awarded the EcoVadis Gold Medal in 2024 for its sustainability management. EcoVadis is a provider of sustainability ratings and evaluates more than 125'000 companies in over 180 countries in the areas of environmental impact, labour and human rights, ethics and sustainable procurement.

Geberit ranks among the top 5 percent of all companies listed by EcoVadis, across all industries and countries. The award makes it clear to customers and suppliers that the company has a comprehensive, systematic and effective sustainability management.

DESIGNED FOR LONGEVITY

Geberit products have service lives that span decades because of the high-quality materials used and strict quality standards applied. Furthermore, they are usually backwards-compatible and are easy to clean, maintain and repair. Geberit offers the availability of spare parts for up to 25 years for a significant proportion of its products. What's more, it also guarantees the flush function of its concealed cisterns for 50 years. The specific functionalities of electronic products (e.g. hygiene flush unit or DuoFresh) are excluded.

CONSCIENTIOUS USE OF RESOURCES

Geberit products are continuously reviewed and improved in terms of water consumption. Plastic is used as efficiently and sparingly as possible to manufacture high-quality and durable products. Internal recycling processes allow almost 100 per cent of all processed plastics to be reused in production. We are working to increase the percentage of purchased plastic regrunulate (post-consumer waste) used in our products in line with the ecodesign principle.

REDUCING OUR FOOTPRINT

Geberit works hard to consistently reduce energy consumption, carbon emissions and waste production while advocating for responsible water usage. The strategy to reduce CO₂ emissions aims to decrease the CO₂ intensity (CO₂ emissions in relation to currency-adjusted net sales) by 5 percent annually. The company places a special focus on energy-efficient production. 80% of total electricity consumption in 2024 was supplied by renewable energy sources.

ECO-DESIGN FOR ADDED VALUE

**Sigma20
Actuator plates**

- Mounting frame for actuator plates: ABS plastic, 100 % recyclable
- Actuator plate: 100 % recyclable

**Type 383
Fill valve**

- Centralized logistics, short transport routes
- Spare parts availability: 50 years, backwards compatible

**WC ceramic
with TurboFlush**

- Natural resources: Quartz, kaolin, feldspar, clay
- A clean flush even with minimal water usage thanks to our efficient TurboFlush technology.

**Duofix
Installation element**

- Environmental product declaration (EPD) available
- Material savings and 10% less CO₂ emissions compared to the previous model
- Designed to be disassembled, allowing the components to be recycled

This graphic illustrates the Ecodesign principle using the example of a typical Geberit product group: a WC system. The Geberit iCon Rimfree® WC with the flow divider made of 69 per cent recycled ABS plastic is installed on the Geberit Duofix mounting frame 111.300. In the Geberit Sigma concealed cistern 12 cm, the type 212 flush valve ensures a reduction in water consumption. The flush is actuated by the recyclable Geberit Sigma30 actuator plate, which is mounted in a frame made of 100 per cent recycled ABS plastic.

GREAT REASONS TO CHOOSE GEBERIT

TOP
5%

Geberit has been awarded the gold medal by the EcoVadis platform for its sustainability management, placing it among the top 5 per cent of companies assessed across all industries and countries.

LESS PACKAGING MATERIAL
Geberit follows a packaging strategy that aims to reduce packaging material by 10 per cent by 2030 (compared to 2023). Plastic packaging must contain at least 35 per cent recycled material by this date.

CERTIFIED LOCATIONS
All Geberit production sites, our central logistics hub and the management company housing all Group functions at our headquarters in Switzerland are certified in accordance with ISO standards 9001 (Quality), 14001 (Environment) and 45001 (Occupational health and safety).

We reached out to private customers to ask what was important to them in the bathroom. Six particular features came up again and again: design, cleanliness, ease of use, space-saving solutions, comfort and accessibility. Recognising that everyone has different priorities, we offer bathroom series tailored to suit a diverse range of needs.

This allows you to create your own dream bathroom with products that epitomise functional design at its best. Our reliable technology represents the state of the art in sanitary expertise. With Geberit, you are sure to find everything you need to create your own, personal spa along with the perfect bathroom furnishings to suit your style. Get ready to enjoy a bathroom that goes above and beyond all expectations.

I EXPECT MORE FROM MY BATHROOM

DESIGN
A reduced and timeless aesthetic that can be easily combined – for those looking for modern elegance and a wide range of colours and materials.

CLEANLINESS
Clever products that remain virtually dirt-free and are easy to clean – for those who want to minimise the amount of cleaning required.

EASE OF USE
Products that are intuitive and easy to use – for those who like to be safe in the knowledge that they are enjoying optimal functionality after a bathroom renovation or conversion.

SPACE-SAVING
Clever functions and products that create space – for those who don't want to compromise on functionality or storage space.

COMFORT
Products that bring comfort and hygiene to the bathroom – for all those looking for extra freshness, well-being and cleanliness.

ACCESSIBILITY
Easily accessible, barrier-free bathrooms – for those who would like a universal design regardless of their age or specific needs.

DESIGN

I ATTACH GREAT IMPORTANCE TO PERFECT BATHROOM DESIGN

From The Design Museum in London to the Museum für Gestaltung in Zurich, inspiring visits to exhibitions are among the personal highlights of my travels. I enjoy taking inspiration and ideas from these places and channelling it into my home – even in the bathroom, having a perfectly coordinated design concept is very important to me.

Design solutions from Geberit offer a wide range of options for creating stylish bathroom concepts down to the last detail. Geberit products and solutions are no strangers to prestigious design accolades including the Red Dot Award and the iF Design Award. With a variety of shapes, materials and surface finishes to choose from, not to mention consistent perfection in workmanship, Geberit's design concepts never fail to tick all the boxes.

GEBERIT ACTUATOR PLATES

Geberit actuator plates make a bold statement in the bathroom. With their round and geometric design, premium materials and contemporary surfaces, they are sure to elevate any space.

SIGMA50

SIGMA50

GEBERIT OPTION

Round, oval or square, the Geberit Option illuminated mirror family offers a wide range of design options for the washplaces. The Option Plus mirror models are available with a black matt frame and form a harmonious ensemble with complementary fittings, bathroom furniture and flush plates in the same colour family.

↑ GEBERIT OPTION OVAL
More design choice with subtle, indirect lighting.

GEBERIT MIX & MATCH

Unique washplaces can be created from classic, vanity and lay-on washbasins, as well as a wide range of bathroom furniture. In combination with the extensive range of illuminated mirrors and side cabinets, the washplaces can be customised down to the last detail.

CLEANLINESS

WHAT TO DO ABOUT HAIR AND DIRT?

It's a hairy predicament: my partner and I almost come to blows every time I take a shower and my hair clogs everything up after getting trapped in the drain. Are there any solutions that will make my bathroom as easy to clean and maintain as I want it to be?

Hair in the bathroom is annoying – especially when it blocks up the shower and washbasin drains. This is why Geberit offers a variety of drain solutions to resolve this issue that are both stylish and easy to clean.

← **ONE WASHBASIN COMB INSERT**
The horizontal Geberit ONE CleanDrain washbasin drain features a comb insert and is easy to remove and clean.

← **COMB INSERT**
A comb insert is built into many Geberit drain solutions to protect against clogging.

CLEAN SHOWER
The Geberit CleanLine shower channel and walk-in shower panel complement each other beautifully to create a perfectly easy-to-clean floor-even shower solution.

GEBERIT CLEANLINE SHOWER CHANNEL

When it comes to trapping hair, the comb insert in the Geberit CleanLine shower channel has got all bases covered. It can also be removed and cleaned in one easy step. The drainage profile of the elegant shower channel is also easy to clean: unlike other solutions, it has no concealed, hard-to-reach areas, which means less dirt can accumulate and the open outlet surface is sparkling clean after a single wipe.

WALK-IN SHOWER PANEL

The walk-in shower panel is fastened to the prewall without any visible fittings or profiles so nothing can get in the way when cleaning down the surfaces.

REQUIREMENTS

Everyone wants a spotlessly clean and well-maintained bathroom, but nobody really wants to put the effort in. This is why Geberit offers clever solutions designed not only to make cleaning and maintenance easier, but also to significantly reduce the build-up of deposits in the first place.

→
GEBERIT SIGMA80
TOUCHLESS
Black glass

TOUCHLESS FLUSH ACTUATION

The ability to actuate a flush without physical contact reduces soiling and minimises the risk of germ transmission.

WC SEAT WITH QUICK RELEASE FUNCTION

NO MORE DIRT TRAPS

Remove the lid, wipe down the surface, then reattach the lid: the removable seat and lid make it much easier all round to keep the toilet clean.

KERATECT® SMOOTH IS SIMPLY CLEAN

Dirt and water stains barely stand a chance on the virtually non-porous, durable KeraTect® finish, keeping surfaces clean and well-maintained for longer.

GEBERIT TURBOFLUSH

ASYMMETRICAL WATER GUIDE

Quiet, thorough and with outstanding flushing-out performance: the asymmetrical inner geometry of the innovative Geberit TurboFlush technology is based on an entirely rimless WC ceramic appliance and minimises the amount of cleaning required.

←
FLOW-OPTIMISED
The lateral water inlet in combination with the asymmetrical ceramic sets the water in a spiral motion.

RIMFREE® WCS

RIMLESS FOR AN EASIER CLEAN

The rimless Geberit Rimfree® WC ceramics set a contemporary standard for hygiene and ease of care. The flush technology with flush guide ensures complete, dynamic flushing out and reduces the cleaning effort – even on a partial flush.

EASE OF USE

MY BATHROOM UNDERSTANDS ME

I like to be able to do my morning routine in the bathroom without thinking. I value innovative functions and smart solutions that make my everyday life easier. How do I design my bathroom to be completely user-friendly?

Geberit develops innovative products and solutions that make our bathroom experience easier and more convenient. They are designed to be intuitive, to make life more straightforward, and to offer real added value.

COMFORTLIGHT LIGHT CONTROL

LIGHTS WITH ADDED VALUE

ADAPTS TO THE TIME OF DAY

The ComfortLight of the Geberit ONE mirror cabinet adapts its brightness and light colour to the natural daylight: bright and cool in the morning, muted and warm in the evening, and a soft orientation light at night. This can be continuously variable via a sensor button or fully automatic via presettings on the Geberit Home app.

INTUITIVE REMOTE CONTROL

SIMPLE OPERATION

The remote control for Geberit shower toilets is now easier to use than ever before. The buttons feature basic symbols and can be operated intuitively. There is also a large display on the back to provide an additional operating aid. The remote control flashes to indicate when descaling is required.

↑ **SELF-EXPLANATORY**
No operating instructions are required to use a Geberit AquaClean shower toilet.

SPACE-SAVING

WHERE DO I PUT ALL MY ESSENTIALS?

From jars, tubes and pots to make-up brushes and hairbrushes, I just love my beauty products. But where am I supposed to put all my cosmetics in the bathroom? And how do I keep my favourite products within easy reach?

You just can't have too much space in the bathroom. But many bathrooms are not as big as we would like. Geberit offers space-saving furniture and shelf surfaces that make optimal use of the available space and make it easy to keep things tidy.

UNINTERRUPTED STORAGE SPACE

Geberit washbasin cabinets offer an impressive amount of storage space without being interrupted by a trap cut-out. The interiors can be adapted to suit personal requirements with variable organisation systems.

GEBERIT ONE WALL-MOUNTED TAP

A wall-mounted tap creates additional space around the washbasin and leaves a continuous ceramic surface that is easy to clean. Available options include a bright chrome-plated model or a contemporary black matt finish.

REQUIREMENTS

Geberit offers a wide range of innovative solutions designed to optimise the use of space in the bathroom. They create order, clarity and a tidy appearance in even the smallest of spaces.

NICHE STORAGE BOX

FREEDOM OF MOVEMENT IN THE SHOWER

The Geberit niche storage box keeps toiletries close at hand in the shower without restricting space or freedom of movement.

GEBERIT CLEANWALL

Concealing the shower drain is the perfect way to create a floor-even shower, as this leaves the floor beneath the shower completely uninterrupted.

← INTEGRATED INTO THE PREWALL
By integrating the water outlet into the prewall, only the removable cover remains visible on the wall.

MIRROR CABINET

PLENTY OF SPACE IN THE PREWALL

The Geberit ONE mirror cabinet can be integrated into the prewall with a barely visible projection. This makes the bathroom feel more open and offers plenty of storage without compromising on space.

TALL CABINET

STACKING HIGH FOR EXTRA STORAGE SPACE

Pharmacy pull-outs have been proving their worth in the kitchen for a long time, but they have now finally made their way into the bathroom. And for good reason, too: The Geberit Acanto tall cabinets with two cargoes offer plenty of space on a minimal footprint. The pull-out mechanism means that cosmetic items are always clearly organised and easy to reach.

COMFORT

SOMETIMES I'M FED UP WITH MY SISTER

Every morning, my sister just manages to beat me into the bathroom. Even once she's finally finished, the unpleasant smell tends to linger and I have to hold my breath. Can't nasty odours simply disappear?

Geberit DuoFresh removes unpleasant odours before they can spread throughout the bathroom. Odour extraction units can be installed directly behind the actuator plate, and selected Geberit AquaClean shower toilets even come with one built in as a permanent comfort function.

← **ACCESSIBLE**
The ceramic honeycomb filter and drawer for in-cistern blocks are readily accessible behind the actuator plate.

← **QUIET AND EFFICIENT**
The ceramic honeycomb filter cleans the air thoroughly. A quiet fan blows the cleaned air back into the room.

GEBERIT DUOFRESH ODOUR EXTRACTION UNIT

Geberit DuoFresh is a beneficial treat for all the senses. Odour extraction starts automatically as soon as someone sits down on the toilet thanks to the user detection feature. It extracts the air directly from the ceramic appliance and filters it back into the room in a purified state. The DuoFresh module can be easily installed in the Geberit Sigma concealed cistern.

Geberit DuoFresh can be ideally combined with the Geberit AquaClean Sela or Alba shower toilets. The popular AquaClean Sela designer shower toilet is also available as an all-inclusive package with the DuoFresh module.

GEBERIT DUOFRESH DESIGN VARIETY

The DuoFresh odour extraction system can be combined with the mechanical actuator plates Geberit Sigma01, Sigma10, Sigma20 and Sigma50.

REQUIREMENTS

It's often the details that make the difference between an everyday experience and that special sense of well-being and freshness. Geberit adds an extra helping of comfort to your bathroom with its spa-style functions you will never want to do without.

WHIRLSPRAY SHOWER TECHNOLOGY

PATENT ON THOROUGH CLEANING*

The patented WhirlSpray shower technology features in every Geberit AquaClean model. It refines the shower spray through dynamic aeration and enables targeted, thorough and particularly gentle cleaning with less water consumption. For a feeling of freshness all day long.

WC SEAT RING HEATING

AUTOMATIC WARM SENSATION**

← PROXIMITY SENSOR ACTIVATION
The WC seat ring heating starts automatically thanks to the proximity sensor.

The WC seat ring heating brings the shower toilet seat to a pleasant temperature in no time. That means no more sitting down on a chilly toilet during the cold season! And for those who prefer it cooler in the warmer months, the temperature can be lowered or switched off at any time.

* Available for all Geberit AquaClean shower toilets.

** Available for Geberit AquaClean Mera Comfort and Tuma Comfort shower toilets.

ODOUR EXTRACTION UNIT

FOR FRESHNESS IN THE BATHROOM

The Geberit Monolith sanitary modules open up unexpected possibilities when it comes to bathroom design. Unpleasant odours in the WC area are now a thing of the past. The extremely quiet fan in the Geberit Monolith sanitary module ensures efficient odour extraction directly in the WC ceramic appliance.

ORIENTATION

DISCREET GUIDANCE THROUGH THE NIGHT

The Geberit orientation light can be set in seven different colours. It switches on automatically when you approach the toilet and provides welcome orientation in the bathroom at night. The muted light makes it easier to fall asleep again afterwards. The orientation light is integrated into various Geberit AquaClean shower toilets, the DuoFresh odour extraction unit, and the Geberit Monolith Plus sanitary module.

ACCESSIBILITY

I WANT A BATHROOM FOR LIFE

As a recreational athlete, maintaining an active lifestyle is important to me. But what happens if my mobility starts to deteriorate? I want to design a bathroom that will continue to offer me optimal usability and accessibility no matter what the future holds.

Your new bathroom should meet your needs for the next 25 years and adapt to any changes in your life. This makes planning ahead a crucial factor. Geberit provides you with bathroom fittings in front of the wall and systems behind it that offer convenience in every situation.

FLOOR-EVEN SHOWER SOLUTIONS

Floor-even shower solutions are not only stylish, they also offer barrier-free access to the shower area. What's more, with shower surfaces such as Geberit CleanFloor, the slip resistance is built right in. This provides a sense of convenience and security for today and tomorrow.

RETROFIT HEIGHT ADJUSTABILITY

WC SEAT HEIGHT EASY TO ADJUST

The sophisticated installation technology of the Geberit ONE WC makes it possible to flexibly adjust the height of the ceramic appliance even years after installation. And what's particularly great about this feature is that the height adjustment technology is located right there in the WC, meaning no intervention in the prewall is required. This kind of flexibility will be useful for generations to come.

WCs

Discover the many ways in which modern WCs can improve your everyday life. Geberit WCs offer a wealth of solutions catering to individual comfort preferences and every budget.

- Outstanding flushing performance: up to 10 times better flushing performance than standard
- Whisper quiet: up to 30% quieter flushing
- More design options: large selection of TurboFlush toilets and flush plates
- Long-term guarantees: 50-year spare parts guarantee, lifetime guarantee on ceramics
- Refreshing hygiene: gentle cleaning with water in shower toilets

GEBERIT WC SYSTEM UP TO 10 TIMES BETTER FLUSH PERFORMANCE

Geberit develops WC systems that optimise the entire water circuit from the cistern to the WC and into the discharge pipe. In this way, the energy from the cistern is converted into an exceptional toilet flush. A powerful vortex achieves full-surface flushing of the rimless ceramic, offering a flushing-out performance that is particularly thorough and quiet.

BETTER FLUSH PERFORMANCE

The flush test shown with 500 standardised plastic balls is representative of the overall result of all 13 tests conducted by Geberit, which result in a flush performance that is up to 10 times better.

LOW-NOISE FLUSHING SYSTEM

The optimised hydraulics of the flush and fill valves and the TurboFlush ceramic appliance with its unique inner geometry ensure that the toilet flushes out as quietly as a whisper.

COMPREHENSIVE DESIGN OPTIONS

Choose from a variety of designs, materials and colours to find the perfect actuator plate for your bathroom and style. Such as the new Geberit Sigma40 actuator plate, which impresses with its minimalist, modern look and its depth of just 4 mm.

Required flush performance according to the DIN EN 997:2018 standard

Geberit WC with TurboFlush: up to 10 times better than the standard

GEBERIT WC SYSTEM QUALITY CONNECTS

At Geberit, we channel our comprehensive expertise into developing and testing our products. We prioritise responsible manufacturing processes every step of the way, craft our products from the highest quality and most durable materials, and deliver them only after rigorous quality inspections. This is why we offer our customers 50 years of spare parts availability for all-round peace of mind. Because Geberit is a name you can rely on.

SCRUTINISED UNDER THE MICROSCOPE: RIGOROUS TESTING IN OUR OWN LABORATORIES

↑ **CERAMIC CHECK**
Geberit ceramics undergo strict quality controls after production before they are sent to our customers.

↑ **HYDRAULICS EXPERTISE**
Geberit's sanitary technology laboratories put flush and fill valves through their paces to demonstrate maximum hydraulic performance and pass long-term durability tests.

↑ **LOAD TESTS**
Geberit ceramic must pass stringent load tests and reliably fulfill all relevant standards.

→ **PRESSURE TEST**
The components for flush actuation must be able to withstand at least 200,000 actuations, corresponding to a service life of around 50 years.

ADVANTAGES OF THE GEBERIT SYSTEM

SPARE PARTS AVAILABILITY FOR 50 YEARS

Geberit guarantees the flush function of its WC concealed cisterns for 50 years. The specific functionalities of electronic products (e.g. hygiene flush unit or DuoFresh) are excluded.

SHOWER TOILETS

CLEANER, FRESHER, MORE HYGIENIC.
DISCOVER THE BENEFITS OF THE UNIQUE
GEBERIT AQUACLEAN SHOWER TOILETS
WITH THEIR GENTLE SHOWER SPRAY.

↑
A shower toilet features an integrated shower spray.
This offers thorough and gentle cleaning without the
use of paper.

GEBERIT AQUACLEAN IN A NUTSHELL

As the gentlest and most thorough means of cleaning, water takes the spotlight in our pursuit of cleanliness. Everyday tasks illustrate just how important water is when it comes to cleaning. After all, would you really prefer to clean your dirty hands with just dry paper? Geberit AquaClean shower toilets ensure freshness and cleanliness all day long at the touch of a button, not to mention extra comfort depending on the model.

HOW DOES A SHOWER TOILET WORK?

←
The spray arm starts in its well-protected park position. It is automatically rinsed before each use to ensure it is always perfectly clean.

←
At the touch of a button, the spray arm extends and the shower procedure begins. Seconds later, a pleasant, warm jet of water can be felt. Once the shower procedure is complete, the spray arm is rinsed again and returned to its park position.

EXTRA COMFORT

In addition to a wide range of designs, Geberit AquaClean shower toilets also offer a whole host of additional comfort functions to elevate your overall well-being experience.

PRESS THE BUTTON, EXPERIENCE THE WHIRLSPRAY FEELING

As gentle as summer rain and as light as a feather: the refreshing sensation of a shower spray comes from the perfect blend of technology and comfort. Enjoy an unparalleled water experience today.

GEBERIT AQUACLEAN. THE SHOWER TOILET.

Moments of pure relaxation and gentle care create a luxurious spa sensation with the unique WhirlSpray shower technology.

Experience the supreme feeling of freshness and cleanliness that lasts all day long.

WATER AND AIR COMBINED

The secret to Geberit's patented WhirlSpray shower technology is the interplay of warm water and pure air. Its delicate, effervescent shower spray creates an incomparably soothing shower experience that also offers a gentle and thorough clean.

The comforting warmth of the shower spray refreshes your senses each and every time. It delivers the perfect temperature from the moment you press the button until the end of the shower experience.

Gentle cleaning made simple: the high-precision water guide of the WhirlSpray cleans exactly where it's needed. The intensity and alignment of the water jet can be customised as required.

GEBERIT AQUACLEAN ALBA

Geberit AquaClean Alba is a simple, stylish toilet with spray functionality. It's the ideal entry-level shower toilet option, offering all the most important functions of a shower toilet while staying in the lower price range. Those who are thinking of buying a new WC can enjoy the benefits of an elegant and effective shower toilet for just a small extra cost compared to a conventional toilet.

Geberit AquaClean Alba

Geberit AquaClean Alba features WhirlSpray shower technology for a gentle shower experience.

HIGHLIGHTS OF THE GEBERIT WC REMOTE CONTROLS

- Simple menu navigation including a large rear display
- Maintenance instructions on the front
- Magnetic wall bracket
- Ergonomic
- Backwards compatible with a wide range of Geberit shower toilets

GEBERIT AQUACLEAN REMOTE CONTROLS

Geberit AquaClean shower toilets can be controlled not only via the Geberit Home app, but also using a simple and user-friendly remote control. This intuitive device has all bases covered when it comes to assisting with various settings and applications related to the shower toilet. Maintenance instructions are clearly visible, and the handy rear display is ideal for making adjustments to the appliance settings. The remote control options differ depending on the accompanying shower toilet: the model with the rear display is compatible with Geberit AquaClean Mera, Sela and Tuma Comfort, whereas the remote control for the Geberit AquaClean Alba and Tuma Classic models is more minimalistic and does not feature a display.

↑ Without display.

↑ With rear display.

↑ A warning sign for maintenance instructions lights up on the front of the remote control when required.

RIMLESS WCS

**QUIETER, MORE THOROUGH, AND SIMPLY SPOTLESS:
DISCOVER THE BENEFITS OF THE ENTIRELY RIMLESS
GEBERIT WCS WITH TURBOFLUSH AND RIMFREE®
FLUSH TECHNOLOGY.**

RIMLESS WCS WITH TURBOFLUSH TECHNOLOGY

Geberit's TurboFlush technology has been specially designed to offer you a toilet that is easy to clean and promises outstanding flush performance. In doing so, our hydraulics experts have optimised the entire water flow from the cistern via the WC to the drain. The energy from the concealed cistern is converted into an exceptional toilet flush. The precise control of the water achieves thorough and complete flushing out of the ceramic without oversplashing, resulting in a flushing performance up to ten times better than required by European standards, less cleaning effort, and a particularly quiet water flow.

The asymmetrical ceramic shape sets the powerful flow rate from the Geberit cistern in a rotating motion. This ensures the full surface of the WC is flushed out thoroughly and quietly.
↓

↑
The inner design of the rimless ceramic has no hidden areas where dirt could accumulate. This makes it particularly hygienic and easy to clean.

TurboFlush technology

WC seat with soft-closing mechanism

Quick release

Height adjustment

Concealed wall fastening

Floor clearance

4-litre flush

Beneath the elegant exterior of the WC lies a wealth of innovations designed for enhanced comfort. The asymmetrical, entirely rimless inner geometry of the TurboFlush technology ensures an outstanding yet quiet flush performance, while the integrated height adjustment feature allows for custom seat height modifications even after installation.

TurboFlush

KeraTect®

GEBERIT ONE WC WITH TURBOFLUSH TECHNOLOGY

Geberit ONE wall-hung WC set
W 37 cm D 54 cm

The innovative TurboFlush technology sets the water in a spiral motion through a lateral flush opening and the asymmetrical ceramic design.
↓

↑
Integrated height adjustment: the seat height of the Geberit ONE WC can also be adjusted retrospectively without interfering with the wall with an adjustable range of +3/-1 cm.

→
Fold up and detach the seat and cover to make light work of cleaning the WC ceramic appliance.

↑
Using hydraulic know-how, Geberit has succeeded in incorporating the consistently rimless TurboFlush flush technology into the Selnova WC ceramic appliance.

←
The Selnova Square TurboFlush toilet has a clear, angular design on the outside. Inside, it conceals innovative flushing technology that ensures uniquely thorough and quiet flushing performance.

Geberit Rimfree® WC ceramics have no flush rim or splash guard, so there are virtually no hidden corners or edges for dirt and limescale to accumulate. The precise water guide also facilitates full-surface flushing.

RIMLESS WCS WITH RIMFREE® FLUSH TECHNOLOGY

← The smooth, easily accessible inner surfaces of Geberit Rimfree® WC ceramics make light work of cleaning for a clean and hygienic experience.

↑ **CLASSIC WC WITH FLUSH RIM**
Conventional WC ceramic appliances have a flush rim that attracts limescale and dirt and allows unpleasant odours to build up. Keeping this clean calls for a lot more effort.

↑ **RIMLESS WC**
Limescale and dirt have little chance of sticking to the smooth, rimless ceramic. The inner surface is flushed thoroughly, leaving everything clean in no time at all.

↑
Optimum hygiene for age-appropriate or barrier-free bathrooms: Rimless WCs are easy to keep clean.

←
The large projection of Geberit Selnova Comfort wall-hung WCs makes it easier for users to transfer from a wheelchair in compliance with relevant accessibility standards and requirements.

GEBERIT QUICK RELEASE

No toilet is complete without a WC seat ring and a lid: one makes the whole experience more comfortable, while the other contributes to general hygiene and a harmonious overall aesthetic. Quick release models are particularly convenient and easy to clean, as they can be simply detached upwards for cleaning. Discover the additional comfort functions of Geberit WC seats.

QUICK RELEASE

Almost all Geberit WC seats are equipped with a practical quick release function. Simply fold up the seat and cover, lift them off, and replace from above after cleaning. That's all there is to it.

↑
After folding them up, the seat and lid can be removed from above and put back just as easily.

↑
SOFT-CLOSING MECHANISM
A special cushioning system for the seat and lid ensures that they close gently and quietly rather than falling shut.

ACTUATOR PLATES

ADD THE FINISHING TOUCHES TO YOUR BATHROOM WITH GEBERIT ACTUATOR PLATES FOR WC FLUSH ACTUATION: AVAILABLE IN A WIDE RANGE OF SHAPES AND COLOURS AND FUNCTIONS TO SUIT YOUR STYLE.

ACTUATOR PLATES FOR EVERY BATHROOM AESTHETIC

More design, more choice: Geberit offers perfectly coordinated design families for WCs and urinals in both square and round shapes, ranging from simple to exclusive.

GEBERIT OMEGA ACTUATOR PLATES

The significantly smaller Geberit Omega actuator plates are ideal for unusual room situations, as they can be mounted for actuation from the front or from above. This is ideal in cases where the WC is installed under a window or a low prewall installation with a shelf surface, for example.

MORE FLEXIBILITY

Where space is limited, the innovative small-format Geberit Omega flush actuator provides welcome flexibility. The actuator plate can be fitted to Geberit Omega concealed cisterns in two low installation heights, either from above on a half-height prewall or from the front.

GEBERIT DUOFRESH

The Geberit DuoFresh odour extraction unit removes unpleasant odours directly from the WC ceramic appliance before they can spread throughout the bathroom. It can be combined with most Geberit actuator plates, making it suitable for virtually any bathroom aesthetic.

Geberit also offers the DuoFresh odour extraction unit with a chute for standard in-cistern blocks.
↓

ACCESSIBLE

The ceramic honeycomb filter and drawer for in-cistern blocks are readily accessible behind the actuator plate.

QUIET AND EFFICIENT

The ceramic honeycomb filter cleans the air thoroughly. A quiet fan blows the cleaned air back into the room.

LED ORIENTATION LIGHT

The LED orientation light is provided for additional convenience. This is located below the actuator plate and radiates a discreet, indirect light into the room – a simply perfectly thought-out addition.

Unpleasant odours are removed right where they form.

WASHPLACES

The washplaces is the heart of any bathroom, so be sure to choose a design that enhances your daily self-care routines.

THE WASHPLACES HAVE IT YOUR WAY

Whether you're washing your hands, doing your hair, shaving, brushing your teeth, or cleaning your face, the washplace is the centrepiece of the bathroom. Geberit is your one-stop shop for ceramics, bathroom furniture and accessories, as well as all the technical elements of sanitary technology. This gives you the freedom to put together the washplace of your dreams in terms of design, function and budget.

→
ACCESSORIES
Flexible shelf surfaces keep your toiletries right where you need them.

→
MIRRORS AND MIRROR CABINETS
Illuminated mirrors provide optimal lighting to the washplace, while mirror cabinets create additional storage space.

←
WASHBASIN TAPS
Wall-mounted taps provide a continuous ceramic surface that is easy to clean.

→
WASHBASIN
Choose from lay-on, vanity and classic washbasins with various rim heights. The choice is yours.

→
ORGANISATION SYSTEMS FOR WASHBASIN CABINETS
Keep a clear overview: additional organisation boxes make the washbasin cabinet even more versatile. The internal lighting in the drawers offers even more convenience.

←
WASHBASIN CABINET
Plenty of space for all your day-to-day washbasin items.

←
SIDE CABINET
Generous storage space for bathroom textiles and more.

STAND OUT FROM THE
STANDARD.
WELCOME TO MIX & MATCH

**"THOUGHTS ARE FREE,
JUST LIKE MY PREFERENCES
FOR MY WASHPLACE."**

**"I'M NOT LIKE EVERYONE
ELSE. SO WHY SHOULD
MY WASHPLACE
BE?"**

Who wouldn't love to design their dream washplace based on their own personal bathroom preferences and care routines? The problem is that this is not always possible when confined to a single bathroom series. This is why the furniture and ceramics in Geberit's most popular ONE, Acanto and iCon series can now be integrated in virtually limitless combinations with Mix & Match.

I NEED A LOT OF STORAGE SPACE,
BUT ALSO WANT A STYLISH DESIGN

ORGANIC SHAPES AND EASY TO CLEAN. **THAT'S MY DREAM WASHPLACE**

GEBERIT MIX & MATCH

IT'S AS EASY AS THIS

←
ROUND ILLUMINATED
MIRROR

Geberit Option Round
with matt black frame
and direct and indirect
dimmable lighting.

→
SQUARE ILLUMINATED
MIRROR
Geberit Option Plus Square
with direct and indirect
dimmable lighting.

Why be restricted to just one bathroom series when creating the bathroom of your dreams? With Geberit's modular concept, you can combine your favourite pieces from the popular ONE, Acanto and iCon bathroom series in a variety of ways.

←
LAY-ON WASHBASIN
Geberit ONE lay-on washbasin
bowl shape, CleanDrain outlet.

←

Black matt (built-in version only)

The brightness and light colour of the mirror cabinet are controlled via a soft-touch button at the bottom of the cabinet or via Bluetooth using the Geberit Home app on a smartphone or tablet PC. The Geberit Home app also offers time presets.

GEBERIT COMFORTLIGHT

PERFECT FOR YOUR DAILY ROUTINE

↓
STANDARD LIGHT

Glare-free light for everyday routines at the washplace.

↑
WORKING LIGHT

Bright and very clear illumination for intensive beauty care.

THE BRIGHTNESS OF THE GEBERIT ONE MIRROR CABINETS CAN BE DIMMED ALONG WITH THE LIGHT COLOUR.

Light has a significant impact on our general well-being. White, bright light is perfect for waking you up, while a muted, warm light has a more relaxing effect. The sanitary products and bathroom furniture featuring Geberit ComfortLight offer a unique feature by adjusting the colour temperature based on the surrounding brightness: the continuously adjustable dimming function automatically makes brighter light cooler and darker light warmer. These lighting conditions are based on natural daylight and are designed to create a cosy ambience. A total of four different, harmoniously coordinated light sources set the perfect scene not only for the washplac, but for the bathroom as a whole. They also create an authentic mirror image without casting distracting shadows.

Gentle orientation light for night-time visits to the bathroom

Continuously dimmable brightness

Non-dazzling light

Stepless height-adjustable shelves

↑
ORIENTATION LIGHT

A soft light that shows the way to the washplace at night and makes it easier to fall back asleep.

↑
INDIRECT LIGHTING

Discreet, warm lighting for relaxing hours spent in the bathroom.

- Blend harmoniously into any bathroom

A modern, minimalist bathroom interior. The scene is dominated by a large, light-colored shower tray with a circular showerhead mounted on the wall. The lighting is soft and directional, creating strong shadows and highlights that emphasize the geometric forms and textures of the materials. The overall aesthetic is clean, contemporary, and sophisticated.

SHOWERS AND BATHTUBS

Showers and bathtubs with clever functions and stylish designs enhance the overall comfort and feel-good factor of your bathroom. Treat yourself to a refreshing boost or a moment of calm with our indulgent water experiences.

SHOWER SURFACES

PLEASANT TO TOUCH, EASY TO CLEAN AND DURABLE: GEBERIT SHOWER SURFACES TRANSFORM YOUR BATHROOM INTO A WELLNESS OASIS, MAKING EVERYDAY LIFE SIGNIFICANTLY MORE COMFORTABLE.

GEBERIT CLEANFLOOR SHOWER SURFACE

The Geberit CleanFloor30 shower surface brings simplicity into the bathroom with its fresh, modern and uncomplicated design. Velvety warm surfaces and on-trend colours transform showering into a daily wellness experience – convenient to use, hygienic and aesthetic.

The smooth, seamless surface made from mineral composite material feels pleasantly warm to the touch and is also easy to clean and antislip. An integrated comb insert for easy cleaning ensures that the shower stays hygienically clean. Water gently runs off the material, creating a peaceful atmosphere. Whether installed level with the floor or on top of the floor, in various colours and sizes, the Geberit CleanFloor shower surface combines elegance and functionality, lending any bathroom a modern, clean look.

↑
The comb insert traps hair and can be removed for cleaning with a single hand movement.

↑
The velvety mineral composite material feels wonderfully warm to the touch.

-  Silky-smooth surface that is pleasant and warm to the touch
-  Simple cleaning and care

TILED SHOWERS

DRAIN SOLUTIONS FROM GEBERIT ENHANCE THE LOOK AND FUNCTIONALITY OF FULLY TILED SHOWER AREAS.

GEBERIT CLEANLINE30 SLENDER SHOWER CHANNEL

CleanLine30 demonstrates just how functional modern design can be with its slender 43 mm-wide profile that fits seamlessly into any size of shower. The floating cover, complete with integrated comb insert, makes cleaning easy while the optimised drain design allows water to drain away even faster. Whether for a new construction or renovation project, premounted sealing, flexible lengths and two water seal depths make installation simple and efficient – for a shower you will enjoy using every day.

↑ CleanLine30 can be installed either back-to-wall or in-centre.

↑ The concave profile curves inward, helping transport water quickly and efficiently to the central drain without a slope.

↑ A simple tap of the finger is all it takes to remove the floating waste plug above the integrated comb insert.

↑ Profile width of 43 mm.

Classic brushed stainless steel or on-trend black

Floor-even access for completely tiled shower areas

No hidden channels to minimise dirt and bacteria deposits. A removable comb insert makes the drain easy to keep clean

Floor-even access for fully tiled shower areas

No hidden gutters to minimise dirt and bacteria deposits. The removable comb insert makes the drain easy to keep clean

reddot winner 2023

Awarded to the Geberit CleanLine50

GEBERIT CLEANLINE50 AWARD-WINNING SHOWER CHANNEL

The Geberit CleanLine50 shares the innovative and easy-to-clean water flow to the central drain with the other shower channels in the series. The water is not concealed, but rather channeled openly over a collector profile to the drain in the middle. This eliminates any hidden areas, preventing dirt and unpleasant odors from accumulating. A single wipe of the profile is all it takes to clean everything.

↑ Can be customised to the width of the shower area and is also suitable for large tile formats.

↑ The comb insert minimises blockages and is easy to remove and clean.

↑ Triangular, solid channel profile with integrated slope for better water drainage.

↑ Narrow profile width of 30 mm.

GEBERIT CLEANLINE80 IMPECCABLY SOLID SHOWER CHANNEL

Made from solid stainless steel, Geberit CleanLine80 shower channels reflect the trend towards coloured metal tones. The integrated slope and anti-fingerprint coating ensure water drains away quickly and make the channel easy to clean.

↑ The comb insert traps hair in the drain and can be removed for easy cleaning with a single hand movement.

↑ Geberit CleanLine80 is available in three sizes and can be adjusted by plumbers to the specific width of a customer's showering area.

→ Classic or on-trend: available in black chrome, champagne and brushed stainless steel.

 Classic stainless steel, on-trend in coloured metallic tones, discreet as a tile-bearing profile

 Floor-even access for walk-in shower areas

 No hidden channels to minimise dirt and bacteria deposits. A removable comb insert makes the drain easy to keep clean

-  Tile-bearing

GEBERIT CLEANLINE20 AND TILE-BEARING

The Geberit CleanLine20 shower channel easily integrates into shower floors thanks to its flat design, creating a floor-even shower area ideal for step-free, accessible installations. The brushed stainless-steel surface is both classically elegant and durable. Geberit CleanLine tile-bearing discreetly and elegantly integrates the drain into shower floors.

↑ Geberit CleanLine20 in stainless steel.

↑ The tile-bearing shower channel integrates almost invisibly into tiled shower areas.

GEBERIT CLEANLINE20 SIZES

4.3 x 30-90		

Dimensions in cm.

Continuous tiling on the floor

Floor-even access for completely tiled shower areas

No interruption of the floor surface caused by the drain

GEBERIT CLEANWALL

The Geberit CleanWall moves the drainage system for floor-even showers from the floor to the wall, which not only looks great, but also makes it easier to install a floor-even shower.

Discreet and easy to wipe clean.
↓

↑
The optionally installable collector profile directly in front of the wall supports the slope and collects dirt and deposits so that they can be readily washed away.

↑
The cover of the CleanWall can also be tiled to match your bathroom design.

Both the drinking water and waste water installations are behind the wall, and the floor can be tiled throughout without being interrupted by visible drains. This also makes it possible to install continuous underfloor heating.

COLOURS

-  White alpine
-  Black matt
-  Bright chrome-plated
-  Brushed stainless steel
-  Polished stainless steel
-  Profile for flush wall tiling

Sizes in cm

 Various design covers

 Threshold-free access for floor-even shower areas

 Simple cleaning thanks to integrated comb insert

ALL COVER TYPES

GEBERIT CLEANPOINT

The Geberit CleanPoint is the classic solution for draining floor-even showers. It offers an exceptional discharge rate with a flat trap structure and is easy to position thanks to its compact design with a grating area of just 8 x 8 cm.

A comb insert serves as a hair trap to prevent blockages. The cover is available in different design variants with a round or square inlet and can be screwed on for public sanitary areas.

↑
The removable, easy-to-clean comb insert prevents blockages.

The design cover of the Geberit CleanPoint is available in round and square versions and can be screwed on.

Walk-in shower panel without bulky aluminium profiles

By using the prewall, the niche storage box creates additional storage space without restricting freedom of movement

No water or dirt residue in the niche storage box, as the water is able to drain freely from the shelf surface

ACCESSORIES

NICHE STORAGE BOX AND WALK-IN SHOWER PANEL

The Geberit niche storage box provides the perfect place to store shampoo, shower gel and more right there in the shower without restricting freedom of movement. What's more, the walk-in shower panel is attached without visible profiles for a more elegant aesthetic that facilitates cleaning with a glass wiper.

The tile-bearing niche storage box fits perfectly into the wall design.

The niche storage box is designed so that water can run off easily and dirt cannot accumulate. It is optionally available with a mirrored door.

The Geberit ONE walk-in shower panel is anchored in the prewall without visible fittings and is therefore particularly easy to clean.

↑
Drain cover and turn handle in a discreet and perfectly coordinated design.

GEBERIT BATHTUB DRAIN

The new bathtub drain is characterised by its minimalist design. Optionally available with an integrated inlet, the tap aerator of the concealed inlet can be detached by hand and easily descaled. The actuator rosette and waste plug are available in white alpine, white with bright chrome-plated design ring, bright chrome-plated, and black matt.

GEBERIT XENO²

CONTRASTING DESIGNS, HARMONIOUS COMBINATIONS

1 Clean lines: slim geometric washbasins, handleless furniture fronts. 2 Smooth push-to-open mechanism for easy opening and closing of the drawers. 3 The flowing, curved form of the basin appears in exciting contrast to the clearly geometric outer contour of the Geberit Xeno washbasins. 4 The rimless Geberit Rimfree[®] WC features an unmistakably flat integrated WC seat with a soft-closing mechanism. 5 High-end furnishing concepts can be achieved in even the tightest of spaces. 6 Complementary illuminated mirrors with LED lighting align seamlessly with the sleek geometry of the Geberit Xeno series.

The Geberit Xeno² design series is synonymous with architectural design minimalism. Clean, geometric lines on the outside – soft, natural shapes on the inside. This combination yields surprising results that captivate the eye and enhance the user experience. Geberit Xeno² boasts a perfectly coordinated product range of intelligent, well thought-through elements created in an identical design language.

GEBERIT SELNOVA COMPACT

SMALL CAN BE SO BEAUTIFUL

The special Geberit Selnova Compact range offers ideal solutions for stylishly fitted-out small bathrooms and guest WCs. Handrinse basins with a small depth, corner variants, WCs and a bidet with reduced projection combine comfort and pleasant freedom of movement. It's often only a few centimetres that makes a difference in a small room.

GEBERIT SELNOVA COMFORT

FOR BATHROOM PLANNING THAT SPANS GENERATIONS

The Geberit Selnova Comfort solutions enable older people and those with reduced mobility to retain their independence in the bathroom without compromising on the quality of fittings. The products implement important functionalities in a appealing design. It is based on Geberit's many years of experience in the development and manufacture of solutions for bathrooms that span generations. These solutions include the extremely flat washbasin offering ample legroom when a wheelchair is rolled underneath or WCs with a wide projection of 70 cm to facilitate easy movement from the wheelchair and a WC seat secured against slipping.

1 WC with extended projection for wheelchair access. **2** Rimfree WC without flushing rim prevents germs from settling permanently. **3** A washbasin that is wheelchair accessible makes personal washing and care a breeze – even when seated. **4** Stainless steel hinge and special shape of the buffers for high stability of the toilet seat. **5** A raised zone in the inner washbasin offers a storage area with easy reach even when the washbasin is filled with water.

GEBERIT BAMBINI

CHILD-FRIENDLY SANITARY ROOMS

ENCOURAGING CHILDREN TO LEARN ABOUT HYGIENE

Children have particular requirements for bathrooms in childcare centres, schools and other establishments. Child-friendly bathroom fittings support and simplify the development of hygienic practices in a playful way. The color palette makes it possible to design sanitary rooms in a variety of ways for different groups of children.

1 Geberit Bambini play- and washspace are available in three different heights and optionally with colored decor. **2** The sloping surface between the basins invites to play with water. **3** Geberit Bambini WCs are available in three heights: 24, 30 and 35 cm. **4** The Rimfree® WC ceramics appliances particularly easy to clean. **5** Grips on the WC seat ring for greater safety when sitting down, sitting up and standing up. **6** Grips on the WC seat for easy opening and closing of the lid. **7** Geberit Renova Compact washbasin as a space-saving solution for the classroom.
